

5 February 2021

Mr Adam Donnelley
Managing Director
Donnelley Constructions Pty Ltd
1/8 Anella Avenue
Castle Hill NSW 2154

Dear Adam,

Cumberland West Relocations Project

Relocation of 20 bed Sub-acute and 20 bed Non-acute Mental Health Facilities for Parramatta Light Rail Service

Letter of Appreciation

Health Infrastructure would like to thank and congratulate Donnelley Constructions for the successful delivery of the relocation of the 20 bed Sub-acute (Boronia Building) and 20 bed Non-acute (Cottages) Mental Health Facilities to make way for the Parramatta Light Rail route alignment within the Cumberland West Hospital campus.

The original 12-month contract program, committed to by Donnelley was considered a robust but achievable target. On response to a TfNSW request to facilitate the commencement of the Parramatta Light Rail construction works, Health Infrastructure requested Donnelley review the program to determine an opportunity to accelerate and commit to an earlier completion date. The Contractor agreed to and achieved an accelerated program completing the project 3 months ahead of the original Contract Completion date. Notwithstanding the accelerated programme and the nature of the various projects, Donnelley's has demonstrated a proactive approach to mitigate any delays, and there was no compromise on the level of completeness and quality at Completion. Furthermore, the exceptional management of the live environment disruption protocols required when operating in an operating mental health facility has been acknowledged by the all relevant stakeholders.

The Western Sydney Local Health District, Parramatta Light Rail, end users and Health Infrastructure are extremely pleased with the end result and the overall standard of works. The close coordination and collaborative approach adopted by Donnelly Construction with all relevant stakeholders is appreciated.

Yours/sincerely

Matt Vizard
Director, Western Region
